

## T & P Caption Report

2023 Year in review. 2023 was a challenging year with training two new judges for the position and working around. We have a total of three judges and two training. When you look around the country in circuits this is normally a lot of judges. With this many, the main criteria is consistency. We strive to be as fair as possible and always have a second opinion of the contest administrators. MCGC asks the T & P crew to be the forward face at all shows. The instructors and the participants see us first when coming onto the floor, it is a pride of all of us to give the students a great experience. We have one judge that has consistently worked for WGI and trained WGI personnel. The earlier we clear up any infraction in a season the better experience everyone will have at a WGI event. I would like to thank MCGC for having us and look forward to a great year in 2024.

Sincerely

Phil Tanner
